POI FEDERAL SERVICES

An SBA 8(a) Certified Native Hawaiian Organization Small
Business

POI FEDERAL SERVICES

CORPORATE CAPABILITIES BRIEF

EXECUTIVE SUMMARY

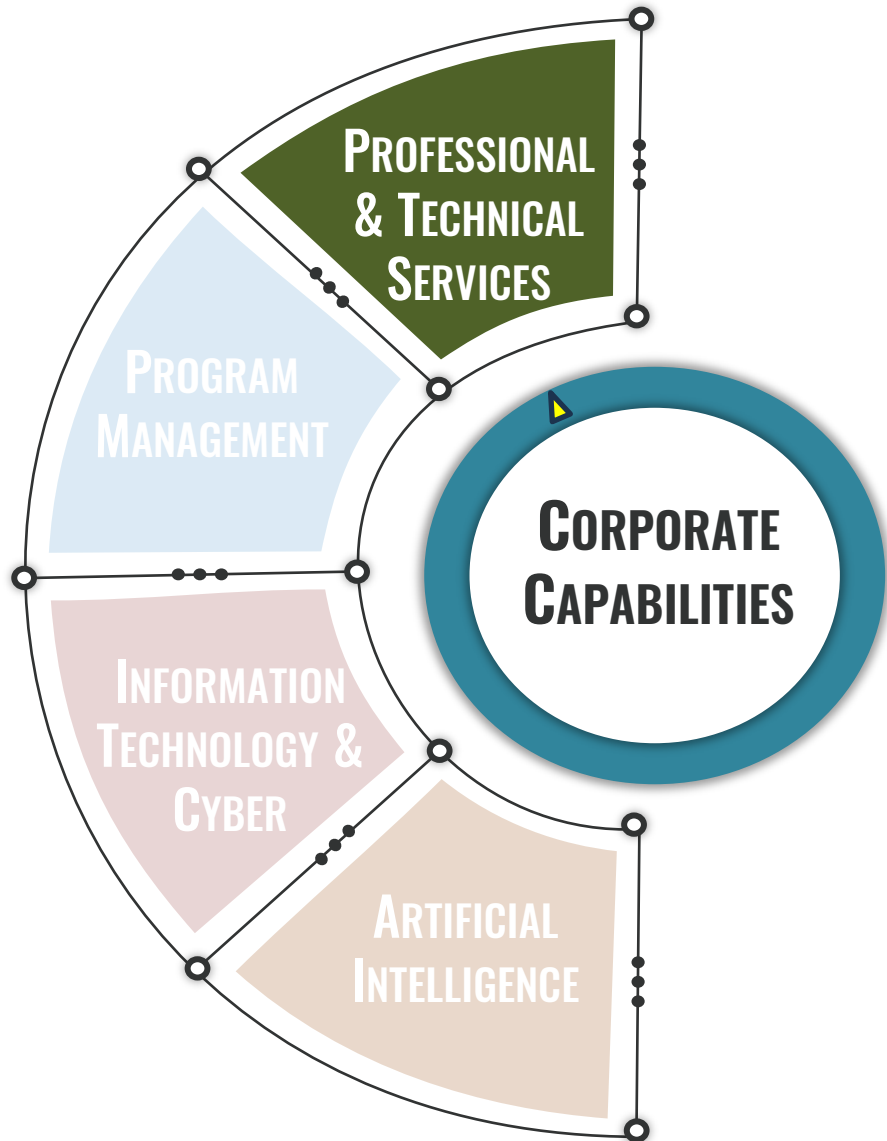

- **Founded in 2018**
- **Native Hawaiian Organization 8(a) Small Disadvantaged Business**
- **Leadership with over 150 years and multi-billion dollars of combined federal and commercial contracting experience**
- **Offices in Honolulu HI, San Antonio TX and Grand Forks, ND**
- **Core capabilities in Professional & Technical Services, Program Management, Information Technology & CyberSecurity, Artificial Intelligence, and Drones**
- **Financially stable small business**
- **Our goal is to work as an integrated member of the customers' team to enhance mission execution**

POI FEDERAL SERVICES

CORPORATE CAPABILITIES BRIEF

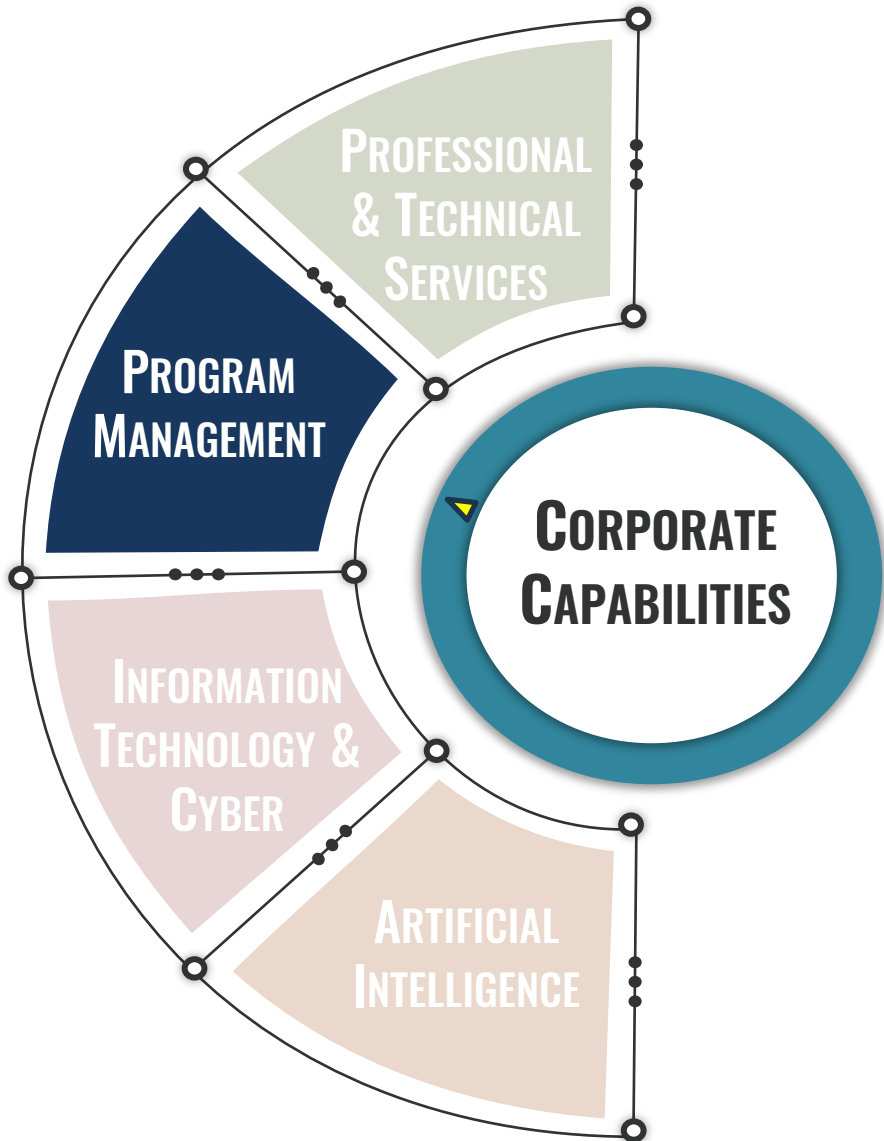

PROFESSIONAL & TECHNICAL SERVICES

- UAS/UUV Systems Testing
- Hybrid Drone/Payload Design
- Oil Burner System T&E
- Robotics Training
- Programming Training
- Classroom, Simulation & Live Exercise Training
- Wind/Solar/Hydro Deployment
- Micro-Grid Design
- Laser Ablation/Corrosion Control
- Coating Solutions
- Environmental Assessment
- LandSat/GIS Analysis
- Habitat Restoration
- Cultural Impact
- Community Engagement
- Energy Consulting
- Electrical Engineering

POI FEDERAL SERVICES

CORPORATE CAPABILITIES BRIEF

PROGRAM MANAGEMENT

POI Federal Services (PFS) has developed a Program Management Office (PMO) to serve as the center of knowledge and expertise. PFS has developed a project culture to better support our clients, partners, and employees.

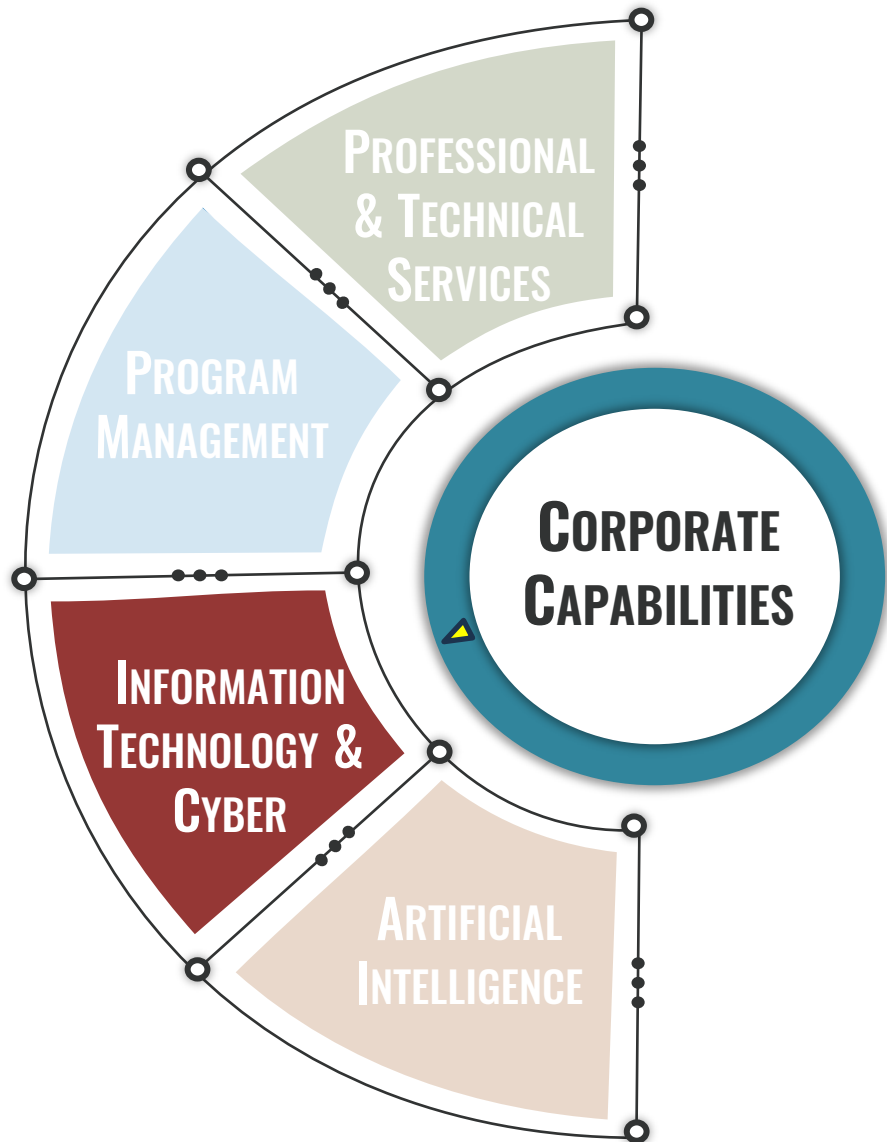

Our PMO consists of multiple roles:

- Establish a project governance framework with a structured approach to govern projects.
- Centralize information and deliver it to the right stakeholders
- Prioritize and align projects with our strategic business objectives
- Establish a communication requirements between stake holders.
- Our team has the demonstrated experience to support organization transformation, technical project execution, contract & financial management, test/evaluation and staff augmentation.

POI FEDERAL SERVICES

CORPORATE CAPABILITIES BRIEF

INFORMATION TECHNOLOGY & CYBERSECURITY

IT Management & Operations

- Server/Network Engineering & Administration
- VMWare Solutions/Citrix Solutions
- Database Management & Design
- Tier 1 – Tier 3 Help Desk Support Services

System and Software Integration

- Logistics, Procurement
- Architecture Design
- Configuration Management
- SDLC Design/Architecture
- QA/QC/Testing Management

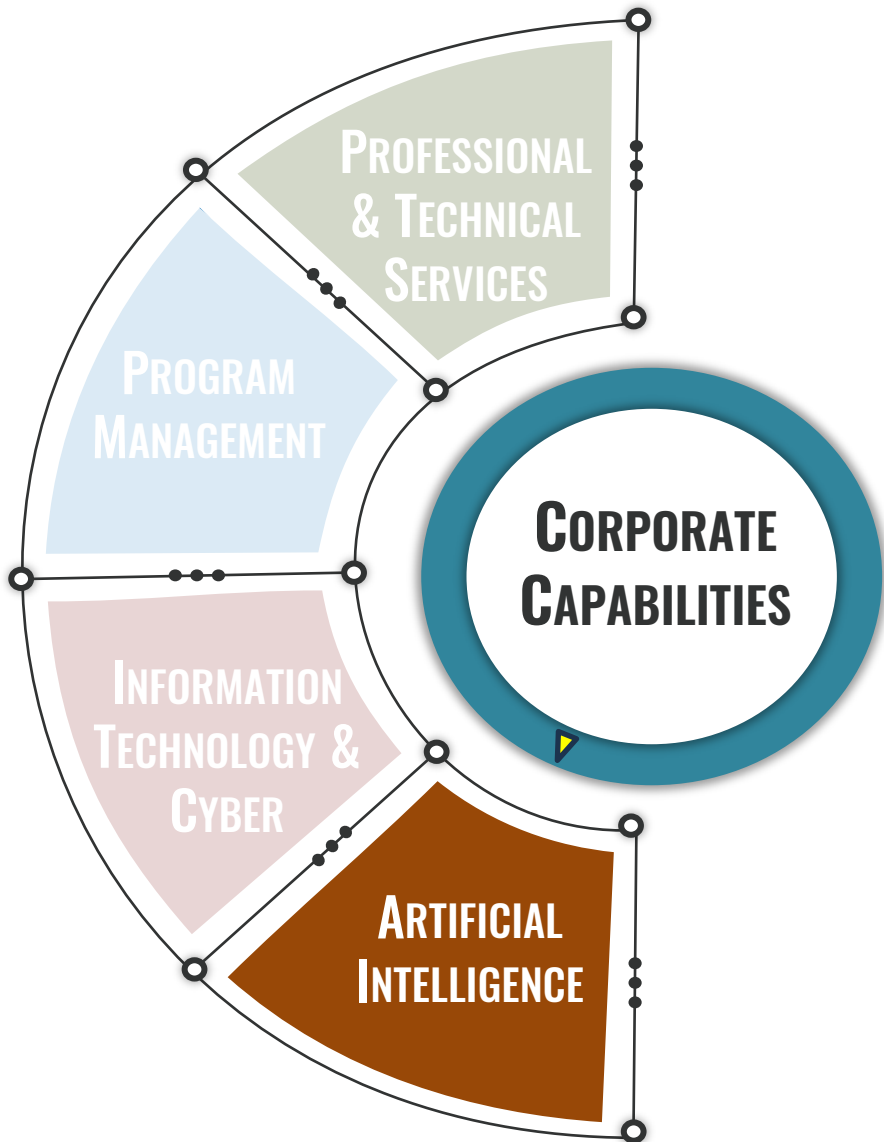

Cyber Security & Compliance

- Information Operations (IO)
- Vulnerability Assessment
- Information Assurance (IA)
- Computer Network Operations
- C&A/FedRAMP/ATO/CMMC
- Security Code Review
- Quantum Cyber Security
- Cognitive Electronic Warfare

POI FEDERAL SERVICES

CORPORATE CAPABILITIES BRIEF

EMERGING TECHNOLOGIES/ARTIFICIAL INTELLIGENCE

Data Collection & Labeling

- Utilization of NVIDIA Omniverse and integration of real operational logs
- Robust data labeling processes tailored for AI/ML model training, ensuring compliance and precision in complex operational

Training & Optimization

- Deployment of NVIDIA DGX and High-Performance Computing (HPC) clusters, leveraging TensorRT and CUDA frameworks for optimized training cycles
- Accelerated model training, fine-tuning, and inference processes

Simulation & Validation

- Comprehensive AI model validation using NVIDIA Isaac Sim and Omniverse, facilitating high-fidelity simulation and rigorous scenario testing.
- Pre-operational verification of AI models in controlled environments, ensuring robust performance and reliability prior to field deployment

Edge Deployment

- Seamless deployment of optimized AI models to NVIDIA Jetson Edge devices (Nano/Xavier/Orin) for reliable real-time inference onboard UAS and robotic platforms.
- Advanced real-time decision-making capabilities enabling autonomous operations

POI FEDERAL SERVICES

CORPORATE CAPABILITIES BRIEF

PAST PERFORMANCE

Project ULTRA, Multiple Task Orders, \$1M

Description: An OUSD(A&S) sponsored program demonstrates unprecedented integration between military unmanned systems and civilian airspace, potentially unlocking new possibilities for commercial beyond visual line of sight operations and establishing critical precedents for airspace management that could transform how all drones operate in the National Airspace System.

Advanced Prototyping and Experimentation (APEX) Other Transaction Authority (OTA), Prime Contract Holder

Sponsors: United States Army Research Lab (ARL), Combat Capabilities Command (DEVCOM)

APEX Fact Sheet: https://www.techaccelerator.us/_files/ugd/507406_7aa4b2c6b04f4f169960656bd31302eb.pdf

Description: APEX OTA operationalizes Science and Technology (S&T) by advancing and accelerating Prototype and Project capabilities focused on nine Technical Areas [Kinetic Capabilities (e.g., Hypersonics), Energy Storage and Batteries, Microelectronics, Critical Chemicals and Minerals, Unmanned Systems (UxS), Rare Earth Elements, Critical Materials, Emerging Technologies and Multi-Domain Operations (e.g., Space)] and 11 Research Competencies [Biological and Biotechnology Sciences; Electromagnetic Spectrum Sciences; Energy Sciences; Humans in Complex Systems; Mechanical Sciences; Military Information Systems; Network, Cyber, and Computational Sciences; Photonics, Electronics, and Quantum Sciences; Science of Extreme Materials; Terminal Effects; and Weapon Sciences.
